CIRCULAR

CONSTITUTION OF INTERIM REDEVELOPMENT COMMITTEE

Dear Members,

As members are aware, the Society has initiated the process for the proposed redevelopment of the Society's property.

With a view to providing an opportunity to members who are willing to participate in and contribute to the redevelopment process, the Society had invited members from all buildings to submit their willingness to participate in the Redevelopment Committee.

The Society has received applications from members of various buildings expressing their willingness to participate in the redevelopment process. However, the number of applications received is not uniform across all buildings.

To facilitate the orderly and continued progress of the Redevelopment process, and to enable the members who have expressed their willingness to assist the Managing Committee, it is proposed to constitute an **Interim Redevelopment Committee** from the among the members who have submitted their applications.

Accordingly, the Managing Committee has decided to constitute the Interim Redevelopment Committee, comprising the members who have, at present, expressed their willingness to participate in the redevelopment process.

ROLE OF THE INTERIM RDC

The Interim RDC shall assist and support the Managing Committee in matters relating to the on-going redevelopment process. Its role shall include:

1. **Communicating to the Managing Committee** the views, suggestions, feedback and concerns of members relating to the redevelopment.
2. **Assisting in communication and coordination** between the Managing Committee and members in connection with redevelopment-related discussions, meetings and activities.
3. **Participating in discussions and meetings** with the Society's appointed consultants, professionals and other persons connected with the redevelopment process, wherever specifically requested or authorised by the Managing Committee.

SCOPE AND LIMITATIONS

The Interim RDC shall function in an advisory and supportive capacity and shall not have any independent decision-making authority on behalf of the Society.

The Interim RDC shall not, unless specifically authorised by the Managing Committee or the General Body:

- take any independent decision on behalf of the Society;
- make any representation, assurance or commitment on behalf of the Society;
- enter into any agreement, arrangement or understanding on behalf of the Society; or
- otherwise bind the Society in any manner whatsoever.

Any views, suggestions, recommendations or proposals arising from discussions of the Interim RDC shall, wherever required, be placed before the Managing Committee for its consideration and appropriate action.

The Interim RDC shall continue to function until the ^{Final} Redevelopment Committee is constituted in its final form.

FINAL REDEVELOPMENT COMMITTEE

The Society has proposed the principle of proportionate representation **from each building** in the final Redevelopment Committee, with a view to ensuring appropriate representation of members from different buildings.

The final Redevelopment Committee shall be constituted by the Managing Committee and/or the General Body, as may be applicable, at the appropriate stage. While determining the final composition, due consideration shall be given to the representation from various buildings, the requirements of the redevelopment process and the overall interests of the Society.

The members of the Interim Redevelopment Committee are requested to extend their full cooperation and support to the Managing Committee and to work collectively in the larger interest of the Society and its members.

The list of members who have expressed their willingness to participate in the proposed Redevelopment Committee is provided below:
