Disclaimer

This report has been prepared by Anex Advisory Services Private Limited ("Anex") for the Managing Committee and the members of Asmita Jyoti Co-operative Housing Society Ltd. ("the Society") to assist them in comparing the bids received for the redevelopment of the Society's property. It is not to be used for any other purpose or shared with any other person without Anex's written consent.

The report is based on (a) the bid documents submitted by the three bidders to the Society's Project Management Consultant, Deodhar Associates, including the revised offers dated 10 October 2026; (b) the tender document issued by the Society; (c) audited and published financial statements of the bidders and their group companies, including data from the Capitaline database; and (d) information available in the public domain, such as credit-rating rationales, regulatory orders and news reports, as at the date of this report.

Anex has not audited or independently verified the information supplied by the bidders, and does not give any assurance on its accuracy or completeness. Where we have noted inconsistencies or gaps in the bid documents, these are recorded so that the Society can seek clarification; they are not findings of fact against any bidder.

Calculations of the value of the offers (for example, rent over 48 months or the rupee value of additional area) use assumptions stated in this report, applied to the revised offers and the tender document. Actual amounts will depend on the final Development Agreement, the approved plans and the actual construction period.

This report compares the bids to help members understand them. It does not recommend the appointment of any bidder. The selection of the developer is a decision of the General Body of the Society under Section 79A of the Maharashtra Co-operative Societies Act, 1960 and the related Government directives. This report is not legal, tax or investment advice; members should consult their own advisors where needed.

PART 1: INTRODUCTION

Asmita Jyoti Co-operative Housing Society Ltd. (Regn. No. BOM/W-P/HSG(TC)/6691/92-93) occupies a large Collector-allotted property at Charkop Naka, Marve Road, Malad (West). The Society invited sealed bids for redevelopment through a tender issued by its Project Management Consultant, Deodhar Associates. This report analyses the three bids received.

The Project at a Glance

Particular	Detail
Location	Charkop Naka, Marve Road, Malad (West), Mumbai 400 095; 27 m road access
Plot	C.T.S. Nos. 6A/1/1 (Plot A) and 6A/1/5 (Plot B), Village Malwani
Plot area	46,000 sq m (11.05 acres) including reservations; 34,390.60 sq m excluding reservations
Land tenure	Collector land (Class II). Conversion to freehold (Class I) is to be done by the developer at its cost, within 90 days of the MOU
Permissible / proposed BUA (approved plan)	Plot A 40,161.84 sq m; Plot B 3,864.50 sq m; total 44,026.34 sq m
Members	816 residential flats and 59 commercial units (875 members)
Existing carpet area	Residential 4,55,947 sq ft; commercial 11,241 sq ft
Zone / NOCs	Residential zone; aviation NOC required
Preferred scheme	Cluster development under Regulation 33(9) of DCPR 2034
Earlier development agreement	An earlier development agreement (2009) stands cancelled

Existing carpet area by building type

Building / type	Units	Carpet per unit (sq ft)	Total carpet (sq ft)
A1	86	809	69,574
A2	86	809	69,574
B1	86	651.74	56,049
C1	84	546	45,864
D1 to D8	336	468	1,57,248
D9 (1st to 7th floor)	42	468	19,656
D9 (ground floor)	6	420	2,520
D10 – D11	48	464	22,272
E1	42	314.14	13,193
Residential total	**816**		**4,55,947**
Commercial units (51 ground floor + 8 first floor)	**59**		**11,241**

What the Tender Asks For

The tender sets minimum terms that every bid should meet or better. The main ones are:

www.anexadvisory.com info@anexadvisory.com

Registered Office:
Unit nos. 1315/16/17, C-Wing, One BKC,
Bandra Kurla Complex, Bandra East,
Mumbai - 400051

CIN: U68200MH2024PTC432053

Item	Tender minimum
Additional area	Residential 50%; commercial 40% (RERA carpet)
Hardship compensation (corpus)	Rs. 1,000 per sq ft of existing carpet; at least 25% at DA, 25% at vacating
Rent (displacement compensation)	Residential Rs. 70 psf p.m.; commercial Rs. 140 psf p.m.; 10% increase every year
Brokerage	2 months' rent for the first year, increasing 10% for each later year
Deposit / shifting	3 months' rent as refundable deposit; at least Rs. 25,000 shifting per unit
Parking	At least 1 car park per member, at podium level
Ceiling height	Residential 10 ft; commercial 14 ft (clear)
Plot B members	To be shifted to Plot A
Society corpus	At least Rs. 15 Cr after the MOU (for consultants' fees)
Government / land dues	Up to Rs. 7.5 Cr of outstanding dues (excluding Collector conversion)
Security for the Society	Bank guarantee Rs. 40 Cr + lien on 30,000 sq ft of sale area (or bank guarantee of Rs. 115 Cr)
Completion	48 months + 6 months grace from vacant possession; damages of Rs. 1 Cr per fortnight of delay
Eligibility of bidder	Net worth at least Rs. 2,500 Cr; debt/equity not more than 0.5; at least one cluster (33(9)) project under execution

The Three Bids

	MLDL	Sunteck	Ramky
Bidding entity	Mahindra Lifespace Developers Ltd	Sunteck Realtors Pvt Ltd (incorporated 2022)	Ramky Urban Homes Pvt Ltd (SPV, incorporated February 2025)
Group / entity whose strength is relied on	MLDL (listed; Mahindra Group)	Sunteck Realty Ltd (listed)	Ramky Estates & Farms Ltd (REFL) and Ramky Infrastructure Ltd (RIL, listed)
Original bid	18 September 2026	18 September 2026	17/18 September 2026
Revised offer	10 October 2026	10 October 2026	10 October 2026
Proposed scheme	Plot A: 33(9); Plot B: 33(7B) + 33(20B)	33(9)	33(9) for Plots A + B (subject to relocating RG); fallback for Plot B

Basis of Analysis

Financial: consolidated financial statements for FY 2021-22 to FY 2025-26 (Capitaline database/audited statements) for MLDL, Sunteck and Ramky Estates & Farms Ltd (REFL, extended with audited statements for FY23 and FY26). **Ramky Infrastructure Ltd (RIL) is taken on a standalone basis**, consistent with the standalone net worth certificate in its bid. For the Ramky Group, RIL (standalone) and REFL (consolidated) are added together line by line, as both companies stand behind the bidding SPV. This is an aggregation, not an audited consolidation.

PART 2: FINANCIAL ANALYSIS

APPROACH

We have compared entities whose financial data have been submitted, using consolidated statements (for Ramky Infrastructure Ltd, standalone statements, the basis of its net-worth certificate in the bid), for FY 2025-26 – the latest audited year – and the three-year average FY 2023-24 to FY 2025-26. Real-estate companies recognise revenue when a project is completed and handed over, so revenue and profit vary from year to year.

Bidder	Entities analysed	Nature of business	Basis
MLDL	Mahindra Lifespace Developers Ltd	Residential and industrial-park developer; much of its business is through joint ventures	Consolidated
Sunteck	Sunteck Realty Ltd (parent of the bidding company)	Residential and commercial developer, Mumbai and MMR	Consolidated
Ramky	Ramky Infrastructure Ltd (RIL) + Ramky Estates & Farms Ltd (REFL)	RIL: infrastructure / EPC contractor. REFL: residential developer (Hyderabad, Bengaluru, Vizag)	RIL standalone; REFL consolidated; added together

RATIOS USED IN THIS REPORT

Ratio / measure	What it shows	How it is calculated
Net worth	The shareholders' own money in the company	Share capital + reserves and surplus (other equity); excludes the share of minority (non-controlling) shareholders
Total borrowings	Money the company has borrowed	Long-term borrowings + short-term borrowings (including current maturities of long-term loans); lease liabilities excluded
Net debt	Borrowings left if all cash were used to repay them	Total borrowings – (cash and cash equivalents + other bank balances + current investments)
Debt / equity	How much of the business is funded by borrowing compared with owners' money	Total borrowings ÷ net worth
Net debt / equity	As above, after allowing for cash held	Net debt ÷ net worth
Interest coverage	How many times profit covers the interest cost	(Profit before tax and exceptional items + finance cost) ÷ finance cost
Operating EBITDA	Profit from the company's own operations before interest, depreciation and tax	Revenue from operations – operating expenses (total expenses less finance cost and depreciation); excludes other income and share of JV / associate profit

www.anexadvisory.com info@anexadvisory.com

Registered Office:
Unit nos. 1315/16/17, C-Wing, One BKC,
Bandra Kurla Complex, Bandra East,
Mumbai - 400051

CIN: U68200MH2024PTC432053

Ratio / measure	What it shows	How it is calculated
Operating EBITDA margin	Operating profit earned on each rupee of revenue	Operating EBITDA ÷ revenue from operations
PAT margin (on total income)	Profit after deducing necessary taxes	Profit after Tax ÷ Total Revenue
Current ratio	Assets due to turn into cash within a year compared with liabilities due within a year	Total current assets ÷ total current liabilities
Return on equity	Profit earned on the owners' money	Profit after tax (incl. share of JV / associates) ÷ total equity at year end
Customer advances / inventories	Estimated Percentage of Inventory Cost Covered by Customer Advances	Customer advances ÷ Inventory
Contingent liabilities / net worth	Possible future payments (guarantees, disputed claims, commitments) compared with owners' money	Contingent liabilities and commitments as disclosed in the notes ÷ net worth

Source: definitions applied consistently to all bidders; audited annual reports / Capitaline database.

What the Ratios Show

Ratio	Inference (FY 2025-26)
Net worth	All three are above the tender minimum of Rs. 2,500 Cr, at about Rs. 3,600 Cr each.
Debt / equity	All three are well within the tender limit of 0.5x (0.18x to 0.28x).
Net debt / equity	After counting cash held, net debt is low for all three (0.01x to 0.19x). All three show a healthy debt profile.
Interest coverage	Profits cover interest cost several times over for all three (3.6x to 26.7x); interest is not a burden on any of the developers.
Operating EBITDA margin	All three run profitable businesses. MLDL's margin is negative because it accounts for its revenue from its Joint ventures.
PAT margin	All three are profitable, with profit after tax of 12% to 24% of total income.
Current ratio	All three are above 1.2x, so short-term assets cover short-term liabilities.
Return on equity	All three earn a positive return on shareholders' money, with MLDL and Ramky touching about 8% each
Customer advances / inventories	For all three, customer advances fund part of the projects in progress, reducing the need to borrow. MLDL and Ramky both score very highly here
Contingent liabilities / net worth	Low for MLDL (6%) and Sunteck (9%). Ramky's 48% is mainly REFL's guarantees for loans of other entities; REFL states that a large part of these loans has since been repaid (see note below the contingent liabilities table and Annexure A).

Break-up of Contingent Liabilities (31 March 2026)

Rs. Crore	MLDL	Sunteck	Ramky Group	*of which RIL*	*of which REFL*
Guarantees / SBLC given for borrowings of other entities	–	192.5	1,050.0	–	*1,050.0*
Bank guarantees & letters of credit for own contracts	–	–	343.1	*343.1*	–
Tax disputes (direct and indirect)	99.3	32.0	196.0	*112.9*	*83.1*

PART 4: COMMERCIAL COMPARATIVE

This Part compares the **final offers of 10 October 2026 & Clarification letters received** on 15th term by term with the tender. Each cell is coloured to show how the term compares with the tender:

TERM-BY-TERM COMPARISON AGAINST THE TENDER

Term	Tender	MLDL	Sunteck	Ramky
A. Area				
Additional RERA carpet – residential	Min 50%	60% (E1: 314 to 502 sq ft)	64%	66% (E1: 314 to 570 sq ft)
Additional RERA carpet – commercial	Min 40%	45%; commercial units up to 202 sq ft may opt for a 502 sq ft flat	44%	58%
Stamp duty, registration, GST on members' area	Borne by developer	Borne by developer for DA, POA and PAAAs, restricted to entitlement area; other taxes on Society / members	Borne by developer; property tax paid by members until all vacate	Borne by developer if Plots A + B approved under 33(9); otherwise taxes on Plot B members' shift borne by them
Definition of carpet area	RERA carpet	"RERA Net Area" incl. balcony	RERA carpet	RERA carpet
Ceiling height (residential)	Min 10 ft	Will endeavour 10 ft, subject to design and FSI (deviation letter: 9.35 ft)	Agreed, subject to planning constraints	Min 9 ft 6 in (comm. 12 ft); will endeavour 10 ft / 14 ft
B. Corpus (hardship compensation				
Corpus – residential and commercial	Min Rs. 1,000 psf	Rs. 1,000 psf	Rs. 1,200 psf	Rs. 1,500 psf
Payment: at DA / at vacating / at possession	Min 25% / 25% / balance	0% / 25% / 75%	15% / 25% / 60%	25% / 25% / 50%
C. Rent and related payments				
Rent – residential, year 1	Min Rs. 70 psf p.m.	Rs. 80	Rs. 75	Rs. 90
Rent escalation – residential	10% a year	+Rs. 4 a year (about 5%)	5% a year	About 5% a year
Rent – commercial, year 1	Min Rs. 140 psf p.m.	Rs. 160	Rs. 150	Rs. 225 front / Rs. 200 back / Rs. 150 first floor
Rent escalation – commercial	10% a year	5% a year	5% a year	5% a year
Brokerage	2 months' rent a year, +10% each year	2 months' rent, once	1 month at vacating + 1 month in year 3 (comm: 1 month every 2 years)	Rs. 180 psf once (resi); Rs. 450 / 400 / 300 psf once (comm)
Refundable deposit	3 months' rent	3 months, adjusted against corpus	3 months' rent	Rs. 225 psf
Shifting	Min Rs. 25,000	Rs. 35,000	Rs. 25,000 each way	Rs. 30,000 each way
D. Parking and options				
Free car parking	Min 1, at podium	Min 1 or MCGM norms, whichever higher; 2 if RERA carpet above 90 sq m	2 for A1, A2, B1; 1 for others; comm. as per MCGM norms	2 for A1, A2, B1; 1 for others and shops (subject to design)
Additional parking for purchase	Rate to be quoted	Will not be sold	Rs. 15 lakh; 1 per member, subject to availability	Rs. 8 lakh; 1 per member; cap 100

TOTAL VALUE OF EACH OFFER OVER 48 MONTHS

The table sets out what each offer would pay over the same 48-month construction period for every bidder, using each bidder's own terms. The refundable deposit is left out because it is returned.

The calculation below is the gross monetary value being provided by respective Developer for each commercial term

Rs. Crore	MLDL	Sunteck	Ramky
Paid to members (816 residential + 59 commercial)			
Corpus	46.72	56.07	70.08
Rent for 48 months	197.53	185.60	223.54
Brokerage	7.66	7.54	8.63
Shifting	3.06	4.23	5.25
A. Total cash value to members (corpus + rent + brokerage + shifting)	**254.96**	**253.43**	**307.50**
Area			
Additional carpet area to all members (sq ft)	*2,78,626*	*2,96,932*	*3,09,828*
B. Value of additional area at Rs. 28,000 psf	**780.15**	**831.41**	**867.52**
C. Total value to members (A + B)	**1,035.11**	**1,084.84**	**1,175.02**
Per sq ft of existing carpet area (Rs.)			
Cash value per sq ft	5,457	5,424	6,582
Additional area value per sq ft	16,698	17,795	18,568
Total value per sq ft	**22,155**	**23,220**	**25,150**

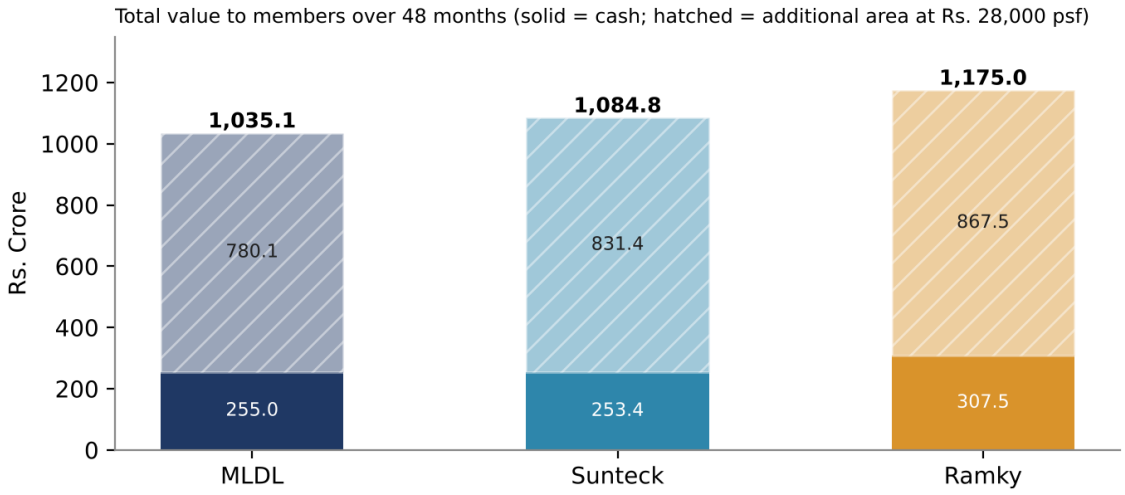

Source: calculated from the revised offers with the period set to 48 months. We are referring to each commercial term and calculating in monetary values basis the same, for example, Rent: Existing carpet area (Residential + Commercial) X Rent offered X Period (48 months). Additional area is valued at an assumed sale rate of Rs. 28,000 psf; this is used only to express area in rupees and is not a market valuation. Society corpus (Rs. 15 Cr) and Government dues (up to Rs. 7.5 Cr) are paid at Society level and are not included here (see Society-level Benefits and Security). Per sq ft figures are on the existing carpet area of all 875 members.

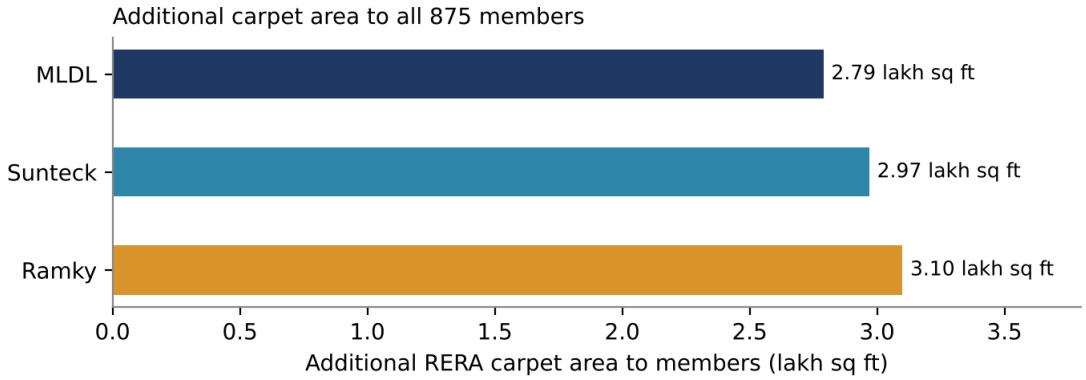

Inference: Per sq ft of existing carpet, Ramky's offer is worth the most at about Rs. 25,150, against Rs. 23,220 for Sunteck and Rs. 22,155 for MLDL. About three-quarters of the value in each offer is the additional area. On cash alone, Ramky pays about Rs. 6,580 psf, against about Rs. 5,450 for MLDL and Rs. 5,420 for Sunteck. Sunteck's higher additional area (64%) puts it ahead of MLDL overall, although MLDL pays slightly more in cash.

Estimated Inflow at the Time of Vacating & Developer's Investment

Monetary value proposed to be received by individual members and by the Society at the time of vacating their premises under each offer. The summary also includes the respective financial commitments and payments proposed by each Developer.

Rs. Crore	MLDL	Sunteck	Ramky
Paid to members (816 residential + 59 commercial)			
Corpus paid by vacating (MLDL 25%, Sunteck 40%, Ramky 50%)	11.68	22.43	35.04
Rent for first 12 months (*assumed* paid in advance)	45.93	43.06	51.79
Brokerage payable at vacating	7.66	3.59	8.63
Shifting (move-out)	3.06	2.19	2.62
Total inflow to members at vacating	**68.33**	**71.26**	**98.09**
Paid at Society level			
Society corpus	15.00	15.00	15.00
Government / land dues (up to)	7.50	7.50	7.50
Total inflow to members and Society	**90.83**	**93.76**	**120.59**
Conversion Premium (CII to CI)	**24**	**24**	**24**
Bank guarantee	**40**	**40**	**40**
Lien on sale area (sq ft)	**30,000**	**30,000**	**50,000**
Monetary Value of Lien (@30,000)	**90**	**90**	**150**

Source: calculated from the revised offers Corpus: share of corpus paid by the time of vacating, as per the offers – MLDL 25% (at vacating), Sunteck 40% (15% at DA + 25% at vacating) and Ramky 50% (25% at DA + 25% at vacating). Brokerage: MLDL 2 months' rent and Ramky Rs. 180 psf (residential) / Rs. 450–300 psf (commercial), both one-time and taken at vacating; Sunteck 1 month's rent at vacating. Shifting: MLDL Rs. 35,000, Sunteck Rs. 25,000 and Ramky Rs. 30,000 per unit at move-out. Society corpus and Government dues are payable after the MOU / against verified dues and are taken as received by the time of vacating. The refundable rent deposit (about Rs. 10–11 Cr; MLDL adjusts it against corpus) is excluded. Estimated value for Conversion premium considered

Member-wise Entitlements – Residential

For one member in each building type, shown separately for each bidder as per the revised offers: the new flat, the additional area and the value received over 48 months (corpus + rent + brokerage + shifting). The last row gives the total for all 816 residential members.

MLDL – per member, by building type (amounts in Rs. lakh)

Building type	Units	Existing (sq ft)	New carpet (sq ft)	Addl. area (sq ft)	Addl. %	Corpus	Rent (48 months)	Broker-age	Shifting	Total value per member	Area value @ Rs. 28,000 psf	Car parks

INSURANCE SURETY BOND

An **Insurance Surety Bond (ISB)** is a financial security instrument issued by an insurance company that guarantees the performance and contractual obligations of a developer in favour of a beneficiary, such as a housing society. In the event of a developer default, the beneficiary may invoke the bond and seek compensation up to the prescribed bond value, subject to the terms and conditions of the policy. Insurance Surety Bonds have emerged as an alternative form of project security and are increasingly being explored within the construction and infrastructure sectors.

A **Bank Guarantee (BG)**, on the other hand, is issued by a bank and remains the more commonly accepted security instrument in redevelopment projects. Under a Bank Guarantee, the issuing bank undertakes to make payment to the beneficiary upon valid invocation in accordance with the terms of the guarantee. As a result, Bank Guarantees are generally regarded as a more established and widely recognized form of financial security.
Surety Bonds operate as a risk-transfer mechanism involving three parties:

- A principal (often a project owner),
- A Developer (responsible for completing the project), and
- A surety provider (typically an insurance company / Banks).

Before issuing a Surety Bond, the insurer undertakes a detailed assessment of the developer's financial strength, technical capability, and execution track record. In the event of a valid claim arising from a developer's failure to perform its obligations, the insurer may compensate the beneficiary in accordance with the bond terms. Thereafter, the insurer retains the right to recover the amount paid from the developer.

A Surety Bond is typically valid for the duration of the underlying project and may include an additional maintenance or defect-liability period. Depending on the policy structure and project requirements, the overall tenure may extend beyond project completion to address potential post-completion obligations.

Surety Bond Insurance (SBI) offers an innovative and commercially efficient alternative to a traditional Bank Guarantee, enabling developers to preserve and optimise banking limits while providing security to the Society. In the redevelopment sector, the claims process under a Surety Bond may, in certain circumstances, be more streamlined, as compensation can be claimed upon establishing non-performance or failure to meet agreed contractual obligations, subject to the policy terms and conditions. By contrast, although Bank Guarantees are generally payable on demand, disputes relating to invocation or compliance with guarantee conditions can sometimes result in legal proceedings or interim relief applications, which may impact the timing of recovery.

PART 5: KEY INFERENCES

This Part brings together the main points from the financial analysis (Part 2) and the commercial comparison (Part 4).

FINANCIAL CAPABILITY

Based on the financial parameters reviewed, all three bidders (MLDL, Sunteck and Ramky Group) appear financially capable of undertaking the proposed redevelopment project and satisfy the key tender eligibility requirements.

MLDL demonstrates the strongest balance sheet profile, with net worth of ₹3,627 Cr, very low net debt, strong profitability (PAT of ₹298 Cr) and the highest interest coverage amongst the bidders. While its operating EBITDA margin appears negative, this is largely due to the accounting treatment of earnings received through joint ventures and associates.
Sunteck exhibits the strongest operating performance, with a healthy EBITDA margin of 27%, PAT of ₹202 Cr, strong liquidity (current ratio of 1.81x) and a consistently conservative leverage profile. Contingent liabilities are also relatively low at 9% of net worth.
Ramky Group has the largest operating scale, with revenue of ₹2,141 Cr and PAT of ₹290 Cr. Leverage and liquidity remain within acceptable levels, while customer advances fund a significant portion of projects under development. The principal point of note is the higher contingent liabilities, largely attributable to REFL's corporate guarantees, although REFL has represented that a substantial portion of the underlying loans has already been repaid.

Looking at the three-year averages (FY24-FY26), all three developers show stable financial performance. MLDL reports the highest average profitability, Sunteck the lowest average leverage, and Ramky the largest operating scale and revenue base, while each maintains a net worth in excess of ₹2,500 Cr and debt-equity ratios well within acceptable levels.

Overall, while each bidder exhibits different strengths, the financial review does not indicate any material concerns regarding their ability to undertake the project. On the parameters assessed, all three bidders possess the financial strength and capacity to execute the redevelopment.

COMMERCIAL OFFERS

All three offers comfortably meet or exceed the tender minimum requirements for additional area, corpus and rent. Additional area offered ranges from 60% to 66% against the tender requirement of 50%, while corpus and initial rent are also above the prescribed minimums.

Based on the estimated value of additional area (at ₹28,000 per sq ft) and member-level cash benefits over a 48-month period, the total value of the offers is approximately ₹1,035 Cr (MLDL), ₹1,085 Cr (Sunteck) and ₹1,175 Cr (Ramky), equivalent to ₹22,155, ₹23,220 and ₹25,150 per sq ft of existing carpet area, respectively. On this basis, Ramky's offer provides the highest overall monetary value, followed by Sunteck and MLDL.

From a member cash-flow perspective, the estimated amount receivable by the time of vacating is approximately ₹68 Cr under MLDL, ₹71 Cr under Sunteck and ₹98 Cr under Ramky, resulting in a materially higher upfront inflow under the Ramky proposal.

Overall, all three offers are commercially viable and exceed the minimum tender requirements. Ramky provides the highest overall value and upfront member inflow, Sunteck offers a balanced commercial package, while MLDL remains competitive with strong cash benefits despite a lower overall valuation. The final selection may therefore depend on the weight placed on overall value, upfront payments, timelines, contractual conditions and security mechanisms offered to the Society.
